

The Campaign for Santa Barbara County Genealogical Society

February 2010

Our Library Expansion Plan in High Gear!

Plans are moving rapidly toward the finish of Phase I (Construction Costs) with Ground-Breaking for our new library addition planned on April 11!

We often speak of the Sahyun as the Society's library, but in actuality, it's **OUR LIBRARY!** As members of the Society, we all have a vested interest in the Sahyun— it's **YOUR LIBRARY** and it's **MY LIBRARY** and **we're out of space for books, computers, and the other things that a great genealogical library needs!**

We are excited that we have now raised \$684,684.72 (over 74%) of the Construction Costs in pledges and gifts; three contractors will submit their bids in mid-February; and approval of our construction plans by the City should follow soon, allowing us to apply for building permits. Whew! **Is this exciting or what!**

We need to raise **\$235,315.28 RIGHT NOW** to complete the Construction Cost Goal for our library. Your important gifts or pledges over a 3-year period will make this possible. **So, let's get this job done and start construction!**

Many thanks to these recent donors for their generous pledges and gifts. Your support is so important in achieving our goal!
