This is a copy of twenty-two pages of typewritten material given me of the Santa Barbara, California 1850 Federal Census. I have copied it exactly as I found the data and have re-checked it once. However, in comparison with a microfilm copy of the original census, one will note the differences in many female names. This is attributed to the entering of the maiden names of the wives.

I believe this record to be quite reliable.

Los Angeles 42, California

Dear Sister Northrop:-

Thanks for your liberality in sending us a copy of the 1852 Census of Santa Barbara.

We are transmitting this to our Microfilm Department to make a microfilmed copy for our Library. After doing so, this copy will be returned promptly to you.

Enclosed is a gift acknowledgment for the index you gave us to the Tom Temple Genealogical Tables.

I note in this index some very interesting and early families of California.

Sincerely,

GENEALOGICAL SOCIETY
