How To Transact Business With the Company

Our aim is to render a service that will give complete satisfaction to our customers. We realize that difficulties will sometimes occur despite all our efforts to avoid them. The telephone service calls which should be made to report service difficulties are shown on this page.

When you come to our Business Office we will be glad to serve you and you will find that our employees are qualified by training and experience to give prompt and courteous attention to your telephone requirements.

Telephone Service Calls

FROM SANTA BARBARA, GOLETA, MONTECITO

LONG DISTANCE . . . . . Dial 110
For placing "Long Distance" Calls.

INFORMATION . . . . . Dial 113
For Numbers not listed in Directory.

REPAIR SERVICE . . . . . Dial 114
To Report Telephone Out of Order.

BUSINESS OFFICE . . . . . Dial 116
For Business Transactions, Applications for Service, Moving of Telephones, Bills, Directory Listings, and to notify the Company if your Requirements are not met.

GENERAL . . . . . Dial Operator "O"
If Calls are Not Completed Satisfactorily or for Assistance in Dialing.

AT CARPINTERIA . . . . . Dial "O"
For any of the Above Service Calls.

How to Make Emergency Calls

The telephone numbers of the Fire and Police Departments are listed on Page 1 in addition to a listing in the alphabetical section of this directory. In calling the Police or Fire Departments, dial the number appearing on page 1. From a coin box telephone, follow instructions on card on front of telephone.

Should you have any difficulty in obtaining a connection to the Fire or Police Departments in case of emergency, dial "Operator." If the number on the dial cannot be seen, place your finger in the first hole below the finger stop and pull the dial around until your finger strikes the stop. Then release the dial and let it return to normal. An operator will answer. Explain the situation, giving her the details of your call, and she will assist you.

General Information for Customers

GOOD SERVICE

Good service depends largely upon the measure of co-operation afforded the Telephone Company by the public. The observance of the following suggestions and instructions will greatly facilitate the successful operation of the service from all standpoints.

HOW TO SPEAK

Speak directly into the mouthpiece of the telephone with your lips close to it. Speak slowly and distinctly in your ordinary tone of voice.

ORDERS FOR SERVICE

To arrange for the installation of new service, changes in service, changes in directory listings, etc. call "Business Office."

Whenever any changes in telephone service are desired the Company should be notified at least seven days in advance. When vacating premises, advise the Company sufficiently in advance to permit your account being closed promptly.

BILLS AND PAYMENTS

Bills for service are rendered at regular intervals and are due upon presentation. Payments should be made either by mail or at the Business Office. Information regarding bills or an explanation thereof may be obtained from the Business Office—Collection Dept.

REPAIR SERVICE

The Company appreciates prompt reports of unsatisfactory service. Such criticisms should always be made by telephone, as soon after the trouble is experienced as possible. Dial or call the Repair Service Number. Operators are required to be courteous but are not permitted to engage in conversation beyond that necessary to complete connections.

RULES AND REGULATIONS AND TARIFFS

Copies of our rules and regulations and schedules of rates are on file at our Business Office and are open to public inspection.

ATTACHMENTS TO TELEPHONES

In the interest of good service, it is requested that you do not permit appliances not authorized by this Company to be attached to our equipment. Many devices claimed by agents to eliminate noise, destroy germs, supplant the directory, etc. are unnecessary and impair the service.

NUMBER CHANGES

Telephone equipment must at all times keep pace with the growth of the community in order to adequately meet the requirements of new and existing customers. To accomplish this, rearrangements must sometimes be made, which necessitate changing of telephone numbers.

Your cooperation will be greatly appreciated whenever such arrangements are necessary. If your telephone number appears on stationery, advertising material or on vehicles, care should be taken that it is correct at all times.

PUBLISHING OF TELEPHONE NUMBERS

As an additional safeguard to the quality of your service and to avoid delays on incoming calls, we advise the use of the expression "Telephone Connection" rather than the telephone number on stationery, trucks, and in advertising.

TELEGRAMS BY TELEPHONE

To facilitate sending telegrams or cablegrams, you should call telegraph companies as listed in the alphabetical directory.

Charges for telegraph messages of the Pacific Telephone and Telegraph Company at all exchanges and the Postal Telegraph-Cable Company and the Western Union Telegraph Company at certain exchanges, placed by telephone, will be billed by the Telephone Company on its bill for telephone service, or, if sent from a public coin box telephone, the charges will be collected at the time the message is sent.

Information About the Directory

HOW TO USE THE DIRECTORY

Consult the telephone directory to obtain the number with which you desire to be connected.

If the number is not found in the directory, dial "Information" and when obtained make a memorandum of the number for future reference on the page of the directory provided for that purpose.

SURRENDER OF OLD DIRECTORIES

Many telephone numbers are changed and new numbers listed in every issue of the directory. It is for the subscribers' own interest as well as that of the Telephone Company that all old directories be collected, as the use of obsolete telephone books result in wrong number calls which are an annoyance to both subscribers and the Company.

DIRECTORY LISTINGS

For each customer a listing is included in the alphabetical directory without charge. Customers may arrange for additional listings, under regulations applying to such listings, to be placed in the alphabetical directory.

ADVERTISING

Rates and other information regarding advertising in the Buyer's Guide will be furnished upon request.

TO FACILITATE FINDING NAMES

Listings are arranged in alphabetical order by surnames, first names, and initials. In using the directory, it is well to remember that names which sound alike may be spelled in different ways; therefore, look under other possible spellings if the name you wish is not found at once.

COPIES OF DIRECTORIES

Customers desiring additional copies of this directory or of directories issued by other Companies may obtain same upon application at the Business Office, for a nominal fee.

CHANGES IN DIRECTORY LISTINGS

Please notify the Business Office, preferably in writing, of any changes that may occur which will affect your directory listing.

To lessen the possibility of error, it will be helpful if you report any changes in listings as these changes occur, rather than at the closing date because of the great amount of work necessary in preparing the directory for the printer.

ERRORS IN THIS DIRECTORY

This directory is the property of Santa Barbara Telephone Company and is provided for the sole and exclusive use of its patrons, who are requested to maintain it in its original condition, usual wear and tear excepted. The Company assumes no liability because of errors or omissions.

How to Use the Telephone

Santa Barbara, Montecito, Carpinteria and Goleta Exchanges

REMOVE THE RECEIVER

Remove the receiver carefully from the hook. Do not shake the hook before dialing as it may result in a wrong number being called.

LISTEN FOR THE DIAL TONE

Listen for the dial tone—a steady humming sound—which indicates that your line is ready for you to start dialing your number. Do not dial before you hear this tone.

HOW TO DIAL

Example: How to dial 7999:

Lift the receiver from the hook and listen for the dial tone.

Place your finger firmly into the hole in the dial associated with the figure 7.

Pull the dial around until your finger strikes the finger stop. (This in a clockwise direction).

Remove your finger, and without touching the dial, let it run until it stops at the normal position.

Proceed in the same manner with the figures 9-9-9 in the order they appear in the number.

Do not replace the receiver or in any way disturb the receiver hook during dialing.

If before you complete dialing, you find that you have made an error, or if your finger slips from the opening while dialing before you have pulled the dial around to the stop, hang up the receiver for a few seconds, then take the receiver off, listen for the dial tone, and after hearing it, dial the complete number again.

THE "RINGING" AND "BUSY" SIGNALS

The ringing signal is an intermittent burring sound which indicates the bell of the called telephone is being rung. Hang up your receiver if the called telephone does not answer after the ringing has continued for a reasonable length of time.

The busy signal is a rapid buzz-buzz-buzz sound which indicates that the called line is busy. When you hear this signal hang up your receiver.

Either the ringing or busy signal should be heard soon after the complete number is dialed. If, after you have waited about half a minute, you have not heard either the "ringing" or "busy" signal, hang up the receiver for a few seconds, then remove it and dial the complete number again. If, after the second attempt to dial the number, you do not hear either of these signals, dial "Operator" and report the condition.

HANG UP THE RECEIVER AFTER YOU HAVE FINISHED WITH A CALL

The dial equipment is controlled by the calling customer, and is restored to normal when the calling customer hangs up the receiver. If a second call is desired, it can be made after the receiver has been hung up for a second or two.

CALLS FROM COIN BOXES EQUIPPED WITH DIALS

Follow instructions on card on front of telephone.

How to Use the Telephone

Party Lines

PARTY LINE COOPERATION

Satisfactory service on party lines depends to a great extent upon the willingness of the individuals on the line to cooperate in their use of the telephone service. Accordingly, party line customers, in fairness to others, should refrain from using the line for excessive periods of time, and allow immediate clearance for emergency calls.

CALLS FROM PARTY LINES

Always listen before starting to dial to make sure the line is not in use. If a conversation is heard, hang up the receiver and wait until you believe the conversation is completed before making another attempt. If while you are dialing, or after you have dialed, you hear another party come on the line, or hear successive clicks in your receiver, it indicates that some other party on your line is also trying to call. Inform the other party that the line is in use and request him to hang up. When he does so, if you have completed dialing and hear the ringing signal, remain on the line, but if you have not completed dialing, hang up your receiver for a few seconds, then remove it and if you hear dial tone dial the complete number again.

TO CALL ANOTHER PARTY ON YOUR LINE

To call another party line subscriber located on your own line, THE CONNECTION CANNOT BE COMPLETED by dialing the regular directory number. In such cases it is necessary to dial a SPECIAL number.

Party line subscribers "Ring-Back-Cards" are supplied upon request and these cards contain special instructions for dialing parties on your line together with the telephone numbers of other stations on your line.

After calling any number on your own line, hang up your receiver. Then your bell and called party's bell will ring alternately. When called party answers your bell will stop ringing. Then remove receiver from hook and talk. If the called party does not answer, remove receiver from receiver hook and again hang up receiver to release connection and stop ringing.

The special "Ring-Back" Code will also be given subscribers for calling stations on their own lines by dialing "Repair Service."

ANSWERING INCOMING CALLS

Incoming calls should be answered as promptly as possible.

If no response is obtained upon answering a call and the dial tone is heard, you should understand that there is no one connected with your line and that any connection that may have been established has been released. You should therefore hang up your receiver.

If no response is obtained and the dial tone is not heard, you should hold the line for a reasonable period awaiting a response, as it is probable that the calling customer has temporarily left the line.

How to Make Inter-City Calls

This Company operates the Santa Barbara Terminals of The Pacific Telephone and Telegraph Company.

To call Long Distance from Santa Barbara, Dial.....110

To call Long Distance from Goleta, Dial 110

To call Long Distance from Montecito, Dial 110

To call Long Distance from Carpinteria, Dial ....."O"

STATION-TO-STATION CALLS

A Station-to-Station call is one on which the calling party does not specify a particular person to be reached but gives only the number of the telephone station desired or the name or address under which the telephone is listed. Station-to-Station service is available to all points. A charge is made if connection is completed to the called number.

To make a Station-to-Station call, dial Long Distance, and when "Long Distance" answers give your telephone number followed by the name of the exchange and telephone number desired. Listen for the operator to repeat the details of your call and remain with the receiver at your ear until the operator indicates that you may hang up the receiver. Station-to-Station calls will also be accepted by the name or address under which the telephone is listed.

PERSON-TO-PERSON CALLS

A Person-to-Person call is one on which the calling party specifies a particular person to be reached at the called place. Person-to-Person service is available to any point where the Station-to-Station rate for the initial period is more than 10c. Under certain conditions, described hereinafter under "Report Charges," a partial charge will be made where it is impossible to establish communication on a Person-to-Person call.

To make a Person-to-Person call, dial Long Distance, and when the long distance operator answers give the details of your call in the following order:

1. The telephone number from which the call is made and the name of the person desiring to talk.

2. The name of the city or town (and state) in which the desired person is located.

3. The telephone number desired, if known; if the telephone number is not known, the firm name or the name or street address under which the telephone is listed.

4. The name of the person with whom you wish to speak and the name of the alternate person, if you are willing to talk with any one else in case the person desired cannot be reached.

Listen for the operator to repeat the details of your call and remain with the receiver at your ear until she indicates that you may hang up the receiver.

MESSENGER CALLS

When necessary, a messenger at the distant point will be sent to call the specified person to a telephone. The exact amount paid out for such messenger service will be charged in addition to the charge for the telephone conversation. The messenger service charge must be guaranteed by the calling party and must be paid even if the desired conversation is not held.

APPOINTMENT CALLS

An Appointment Call is a Person-to-Person call in which communication is to be established at a specified time.

COLLECT CALLS

Upon the request of the calling party the charges on a Station-to-Station, Person-to-Person, Appointment or Messenger call, including messenger charges, if any, will be collected at the called telephone, if such charges are accepted by the called party. Request to have the charges collected in this way should be made when the call is given to the long distance operator. Collect calls are not accepted in connection with Station-to-Station service where rate is less than 25 cents.

REQUEST FOR CHARGES

If a person desires to be advised at the conclusion of his conversation of the amount of the charges on his call, time will be saved by so notifying the long distance operator at the time the call is placed. If the request for such information is not made until the completion of conversation, unavoidable delay may result while the operator ascertains the rate and computes the charges.

Rates and Charges for Long Distance Service

RATES AND CHARGES FOR LONG DISTANCE SERVICE

Rates for toll service are based in general upon an initial period of three (3) minutes, although in some cases a five (5) minute initial period is used. For all conversations not extending beyond the initial period, the full rate for the initial period will be charged. For conversations extending beyond the initial period, the full charge quoted for the overtime period applicable to that particular rate will be made in addition to the charge for the initial period. The operator will not interrupt conversations to notify patrons of the expiration of the initial period.

The rates for toll service may be obtained by dialing "Long Distance."

The rate for a Station-to-Station call is the fundamental rate upon which the rates for other classes of service are based.

The rate for a completed Person-to-Person call is about one-fourth greater than the Station-to-Station rate. The Person-to-Person rate is computed on the Station-to-Station rate between the points involved whether the call is made during the day, evening or night and the minimum is 15c.

The rate for a completed Appointment or Messenger call is about one-half greater than the Station-to-Station rate. The rate for Appointment or Messenger calls is computed on the Station-to-Station rate between the points involved whether the call is made during the day, evening or night and the minimum charge is 20c, plus the messenger charges in the case of a Messenger call.

REPORT CHARGES

A Report Charge will be made on Person-to-Person calls which cannot be completed for the following reasons:

1. The called party is not available at the called station, or refused to talk, or to accept the charges on a collect call, and a report to this effect is given the calling telephone.

2. When the call is ready for completion the calling party is not available or refused to talk, or no answer can be obtained from the calling station.

3. If an appointment call is not completed after the appointment has been definitely arranged with the called telephone.

4. If a messenger call is not completed after arrangements have been made to notify the called party to come to a telephone.

Reports will be given by the operator when obtained. Additional reports can be secured by dialing "Long Distance."

THE REPORT CHARGE

The report charge is to cover compensation for the operating work performed and is approximately one-fourth the initial Station-to-Station rate between the points involved. A Report Charge, in addition to the charge for the call, is not made provided the call is completed.

EVENING AND NIGHT RATES

Reduced toll rates, known as Evening rates and Night rates, applicable to Station-to-Station service only, are in effect between the hours of 8:30 P.M. and 4:30 A.M. The minimum Evening rate and Night rate is 25c. Day rates apply on calls made in the evening or at night when the Station-to-Station Day rate between the points involved is less than 25c. Evening and Night rates do not apply to Person-to-Person calls, including Appointment and Messenger calls.

BETWEEN 8:30 P.M. AND 12 MIDNIGHT

Between 8:30 P. M. and 12 midnight the Station-to-Station rates are approximately one-half of the day rates and are known as "Evening Rates."

BETWEEN 12 MIDNIGHT AND 4:30 A.M.

Between 12 midnight and 4:30 A. M. the Station-to-Station rates are approximately one-fourth of the day rates and are known as "Night Rates."

In applying Evening rates or Night rates the time at the originating point, when connection is established, shall govern.

International and Ship-to-Shore Telephone Service

Telephone service is available from your telephone to other countries including Europe, Asia, Africa, India, Mexico, Cuba, Canada, Hawaiian Islands, Australia, and South America.

Overseas service is available to most points twenty-four hours a day. Reduced evening and night rates are not offered and collect calls will not be accepted.

For further information dial "Long Distance."

Ship-to-Shore Service

Ship-to-Shore service is available on several Atlantic liners including the following:

Albert Ballin	Caledonia	Europa	Majestic	Queen of Bermuda
Aquitania	Columbus	Hamburg	Monarch of Bermuda	Rex
Berengaria	Deutschland	Homeric	New York	
Bremen	Empress of Britain	Ile de France	Olympic	

The initial rate for three minutes when the ship is within 500 nautical miles of New York is $21.00 and $30.00 when the ship is more than 500 nautical miles from New York.

For further information dial "Long Distance."

Rates for Inter-City Service

BUYER'S GUIDE

FOR

SANTA BARBARA

MONTECITO, GOLETA

OCTOBER, 1933

"WHERE TO BUY IT"

Service Functions of the Buyer's Guide

The Buyer's Guide performs two service functions, namely:

First: A Buying and Selling Service:—

This service enables those having commodities or services to sell, to advertise such services, and those desiring to buy a particular commodity or service to readily ascertain "Where to Buy It."

Second: A Business Telephone Number Service:—

This service facilitates ascertaining the telephone number of a business telephone subscriber under the Main Heading, which is generally descriptive of the business in which the desired party is engaged.

How to Find Where to Buy a Particular Commodity or Service

To find where to buy the article or service you want:

First—locate the main heading which is generally descriptive of the commodity or service you wish to purchase.

Second—find the sub-heading or the sub-sub-heading descriptive of the particular kind of article or service you desire, and then select from the listing shown thereunder the dealer with whom you wish to do business. Main headings are arranged in alphabetical order determined by the sequence of the letters in each part of the heading. The sub-headings and sub-sub-headings follow in like alphabetical arrangement after the last listing under the main heading, and are somewhat indented in the column for the purpose of indicating that they are a part of the service described by the main heading with which they are associated.

For example, if you wish to purchase a particular type of clothing, such as Children's Clothing, find:
First—The general heading of

Clothing Business

Second—Locate the sub-heading of

Children's Clothing

which will be found in its alphabetical order, indented with the other headings, following the last listing appearing under the heading of CLOTHING BUSINESS.

Under this sub-heading you will find listed the names of dealers from whom you can buy CHILDREN'S CLOTHING.

Likewise, if you wish to obtain the services of a Certified Public Accountant:
First—Locate the main heading of

Accountants

then refer to the sub-heading of

Certified Public Accountants

following the general heading of ACCOUNTANTS

Under the sub-heading are the listings of individuals from whom you can obtain such services.

Informational Listings

The descriptive matter associated with this type of listing informs you of the business characteristics of the listed firm. It gives you the kind of information that the salesman of that firm would give you.

Display Advertisements

Beside, preceding, or following the heading in many instances you will find display advertising of firms or individuals who are soliciting your business. The advertisements in such instances provide you with more complete buying information.

If you want to find a dealer handling a Trademarked or branded article:

Look for the heading which bears the name of the article you wish,

Or, under the heading descriptive of the product or service rendered.

In either case, cross references will direct you to the names of the dealers.

The trade mark and descriptive matter relative thereto, and list of dealers, are associated with that heading.

Ford Cars, Trucks and Service

Dealers listed below use genuine Ford parts and are specially trained and equipped to give good service. For Ford service consult an Authorized Ford Dealer.

How to Find the Number of a Business Subscriber

To find a business concern you have in mind:

FIRST—locate the heading descriptive of the general type of business. This will be shown in its regular alphabetical order.

SECOND—locate the desired concern and telephone number by examining the listings appearing under the appropriate main heading.

For example, if you desire to obtain the telephone number of some individual or firm engaged in the Radio Business, turn

First—to the main heading of

Radio Business

Second — locate under that heading the listing of the individual or firm whose telephone number you are desirous of obtaining.

FIRST AID TO THE SHOPPER

•

It's fun to shop, when you don't needlessly "trot." Before you start out to shop, it is wise to consult the Buyers' Guide. Information about dealers will enable you to go directly to the firms that carry what you want. The Bueyrs' Guide will make your shopping easy and more satisfactory.

"I want
TELEPHONES
here . . . here
and here"
Wise woman! And she can have them for only a few cents a day.

Let the
TELEPHONE COMPANY
Know in advance
When You Wish to Redecorate or Remodel
Advance Notice to Us Will Help You:
To insure proper interception of your calls, if disconnection is necessary.
To get prompt removal and replacement of instruments during repairs. This usually can be done without interruption to your service.
To avoid unsightly paint spots on telephone instruments.
Now is the Time to Modernize Your Telephone Service.
Have a Handy Extension Telephone Right Beside Your Easy Chair at Home

TO GET STILL BETTER RESULTS FROM YOUR DIAL TELEPHONE

●

1. Please consult front pages of telephone directory for complete dial operating information.

2. Please have the desired number definitely in mind before starting to dial.

3. Please wait for the characteristic "dial hum" before dialing a number.

4. After each operation of the dial, please remove finger and let dial go back to normal position of its own accord.

5. After finishing one conversation, please return receiver to switchhook and wait a few seconds before dialing again.

●

If these little points are kept in mind, faster service will be the result.

It is ready

. . Your telephone serves you even when you are not placing any call. It makes you available to your friends whether they are a single block or many miles distant. It protects your home and loved ones even when it is simply standing by. It is ready to connect you with nine-tenths of all the 35 million telephones on earth. Yet the cost of having such service conveniently at hand is only a few cents a day.

"Wait a Minute"

One of the high lights in the code for getting the most out of your telephone service is, "Try to be ready to talk when you make your call."

Sometimes a business man, under press of work, asks his secretary or private branch exchange attendant to get such-and-such a man. Then he waits until the man is actually on the line before he even lifts a receiver.

This practice often irritates the called person. Few like to be told to "wait a minute."

If you believe in letting the telephone serve your interests fully, may we suggest that you be ready to talk when you place a call.

Modern telephone service is swift; it is to your advantage to help us make it swifter

Typical Telephone Services

INTER-CITY SERVICE to 92 per cent of the world's telephones.

LOCAL EXCHANGE SERVICE of many types.

EXTENSION TELEPHONES and wiring plans.

PRIVATE EXCHANGES of various types.

SPECIAL TELEPHONES for the hard of hearing.

DIRECTORY ADVERTISING and extra listings.

TELEPHONE SERVICE REQUIREMENTS studied for customers.

NEW BUILDING PLANS for wiring suggested to customers.

These are but a few of the services we offer. Just ask our Business Office.
