Editorial Note The Goddard Association of America

Words of appreciation are due to Patricia Case, Doris Crawford, Doreen Dullea, Evelyn Fetter, Muriel Graham, Norman Scofield, and Ruth Scollin for acting as Editors for the September ANCESTORS WEST and for continuing to assist in many ways. Establishment of an Editorial Staff seems to be in the process of realization.

Doreen Dullea, president of SBCGS, has contributed several pages of material for this issue. Donna Tepper typed the 1909 Marriage Records. Ruth Scollin, Librarian contributed and typed New In the Library as usual. Copy of an article from the Summer, 1983, Library Trends, by Rick J. Ashton, Director, Allen County Public Library, Fort Wayne, Indiana, entitled A Commitment to Excellence in Genealogy: How the Public Library Became the Only Tourist Attraction in Fort Wayne, Indiana, was supplied by Emily Theis and is digested in this

An apology is due for illegible handwriting. How else could "Pied Cow" be interpreted as "Red Cow." On page 85 of the September quarterly, "Pied Cow" should be substituted for "Red Cow" and on page 86 line 2, please insert between the words "only" and "Goddard" the following: "John" Goddard of "Oyster River" descendant. A 5-page listing of those present giving name and state and immigrant or earliest known ancestor was distributed to those present at the Goddard Association of America Convocation, Wichita, Kansas, 21-24 June, 1984 as of June 20, 1984. Among the ancestors were William and Elizabeth (Miles) Goddard, Massachusetts, John and Mary (McTier) Goddard, Virginia, James Mason and Hannah (Powell) Godard, Canada, Joseph and Elizabeth (Jordan) Goddard, Tennessee, Ebenezer Goddard, Ft. Wayne, Ind., John Goddard, Scott Cty., Kentucky; Capt. William Casey Goddard, Illinois/Kansas; Daniel Gozzard, CT., Lon Goddard, Ohio?WVA?) Ezra Goddard, PA ca 1733/1813, William and Elizabeth Goddard? PA, John William (?) and Elizabeth (?) Goddard, ca. 1735/1835.

Mary Goddard, 825 NW 35, Oklahoma City, OK 73118, answers queries from or about Oklahoma families, in the Oklahoman & Times. There is no charge, but queries must be fairly brief and have some anchoring points. Her columns are in the data bank of the newspaper's electronic library for 1982 and onward, although the column began in November 1975, on the eve of the Bicentennial.

THE GODDARD BOOK is being published in two volumes. Vol. I in 1984 and Vol. II, sometime in 1986 and will contain about 1,200 pages with indices in both. The two indices (surnames and place names) in Vol. I alone will contain 9,000 to 10,000 names. Size 6"x 9", red hardback covers with the outline of the Goddard shield in gold. Printed on acid-free paper for durability. They will include the Goddard shield in full, color, with its interpretation. The Shield is also available, printed in three colors (red, blue, and black on white) on heavy durable paper, 8 1/2 x 11" in size, suitable for framing, but only to members of The Goddard Association of America. About 600 people have provided information, including two Goddard family historians living in England. These massive materials have been edited by John W. Harms and his late wife Pearl Goddard Harms. NOVEMBER MEETING - SBOGS

A relatively new member, Nancy Oster, was the main speaker at the November meeting - her subject "NEEDLEWORK AN ANCESTOR". This she does superbly and had an album of her own ancestral needlework portraits. For best results she suggests that one use a high quality photograph with a plain contrasting background (dark hair against a light background, light against dark). The face must be not smaller than a dime. Made from photographs submitted to her, she offers graph charts in three sizes - 70 x 80, 80 x 98 and 110 x 120 stitch charts. For most effective reproduction just the face and part of the collar is included. For petts the face and upper chest. For houses the large or super size is recommended. All are charted by computer for shades of brown. Needlepoint materials are available. Charts are reusable.

Nancy also works with the computer in genealogy research of her own and her husband's lineage. She reports that she is currently working on Wolf(e), Graham, Evans, McLaughlin, Essex, Chastain, Oster and Watson.

The report of the Nominating Committee was received; election to be held at the December meeting. Those nominated were:

Jan Cloud	President
Doreen Dullea	Vice President
Dorcus Robson	Treasurer
Audrey Gunermann	Secretary

A recent article in the Santa Barbara News Press told of a Lompoc Cemetery project being conducted by SBOGS member Frances M. Houston, 1120 North Orchid St., Lompoc, CA 93436, and her sister. Working with old record books, privately kept, and computer they have listed burials. In spot checking they have found several marked graves not recorded in the books and in the near future intend to walk the cemetery to see if there are others. They also are trying to get their family genealogy in book form.

Kenneth Jenkins, B.Sc., M.I.E.E., Frome Cottage, 28 Dorchester Rd.
 Frampton, Dorchester, Dorset, DT2 9ND, England
 has requested the following announcement:

1851 DORSET POPULATION DIRECTORY

A directory of the population of Dorset is being compiled from 1851 census microfilms.

It will be set out in a single alphabetical sequence of surnames of heads of family for the whole county. The names of the rest of the family will immediately follow the name of the head so as to maintain family relationships at that address. Members of the family having surnames different from that of the head will be listed again in their correct alphabetical place, and cross-referred back to the head of the family. The entry of each person will come under six headings:

- Full name(surname first) Age
- Relationship to head of family
- Occupation (where given)
- Address (where given) and Birthplace

It is hoped to be able to make the directory available at about £10 per copy (p and p extra). Subscribers wishing to support the project are requested to write to Mr. Jenkins at the address given above, so that their name may be added to a subscribers list. Then, if sufficient support is forthcoming, a decision can be made to have the directory printed.

Also enclosed was a newspaper item in which the method being used in producing the directory was described. The population of Dorset in 1851 was about 180,000. If enough demand, he would be able to produce indices for small areas, such as Shaftesbury.

Emily Thiess has called attention to an article entitled A Commitment to Excellence in Genealogy: How the Public Library Became the Only Tourist Attraction in Fort Wayne, Indiana, by Rick J. Ashton, Director, Allen County Public Library, Fort Wayne, Indiana, in the Summer 1983 Library Trends 89-96. In 1935 Rex M. Potterf, a well-educated high school history teacher, became chief librarian of the public library, later earning a library degree at the University of Illinois. He set up a print shop, carpentry shop and enlarged the capacity of the Carnegie building, by buying houses, gas stations and stores and filling them with books, including used books bought in the thousands. In 1935 he appointed Fred J. Reynolds to head the Allen County Dept. At the end of 1959 Potterf retired and Reynolds succeeded him, serving as chief librarian for 19 years. An expanded new building opened in 1968 and storefront branches were replaced by new modern buildings. The original genealogy department began operating in January 1961 in a corner room of the old Carnegie building with about 400 books donated by the local DAR chapter and one staff member, Dorothy M. Lower. All available census microfilms were purchased from the National Archives; Between 1000 and 1500 city directories are received each year. In the mid-1960s through an arrangement with the Newberry Library in Chicago, many of whose older books were deteriorating. Joseph C. Wolf, curator of the local and family history collection, furnished Reynolds with a photocopy of the entire Newberry Library shelf list for parts of the collection; thousands of books which Fort Wayne lacked were transported to Fort Wayne over a period of several years. Two high quality photocopies on acid-free paper of each book were made, bound

by a commercial library binder and put into use. One copy was at the Newberry Library and the other at Fort Wayne. The original books were returned to the Newberry Library. There were at least 15,000 to 30,000 books treated in this way. The photocopies volumes are sturdy, serviceable items, but do not preserve the physical character of the original books. Reynolds and Wolf early decided that photocopies were preferable to microfilm for the reason that genealogical researchers do not read a book from cover to cover or from front to back in the scroll-like fashion required of microfilm. They search a book's indexes, lists of names and contents columns in ways which are extremely cumbersome on microfilm. This arrangement led Reynolds to include a number of other public libraries, historical societies, state libraries, and other repositories of local history and genealogy information across the country. This activity still continues but on a much smaller scale. Two photocopies are made of each item, one stays on the Fort Wayne library shelves, the other goes to the supplier of the material.

By late 1976 it was apparent that the new building opened in 1968 would soon be outgrown. As the last major undertaking of his professional career, Reynolds launched the building of an addition. The second floor of the addition, opened to the public in January 1981 contains seating for 9t researchers at tables; 24 microfilm readers and shelf space for substantial expension of the genealogy collection, which at the writing of the article by Mr. Ashton, exceeded 120,000 volumes and 30,000 rolls of microfilm. Financing of these projects has taken place within the normal operating and capital budgets of the library.

SANTA BARBARA COUNTY GENEALOGICAL SOCIETY

The first county historical or genealogical society in the United States to become affiliated with the International Federation of Family History Societies; is also a member of the American federation. There is a complete file of ANCESTORS WEST in the Library of Congress. Also from March 1979 at NEHGS, Boston, Mass.

SANTA BARBARA COUNTY

One of California's 27 original counties. While the county was actually created in 1850, the history of the area dates back to 1542. In that year Juan Cabrillo discovered the Santa Barbara Channel and later, according to legend crossed to San Miguel Island, where he died and was buried. A second Spanish explorer, Sebastian Vizcaino, entered the channel on the Feast Day of Saint Barbara in 1602 and named the area accordingly. Fr. Junipero Serra founded the Santa Barbara mission in 1786. Santa Barbara royal Presidio, established April 21, 1782, was the last of four royal presidios in Alta California - San Diego, Monterey, San Francisco and Santa Barbara. Santa Barbara had all three Spanish forms-Presidio representing the military; Pueblo, civil and Mission, religious. In 1873 Ventura County was established from the southern portion of the original Santa Barbara area.
